8. Background to, Short summary and aim of the proposal

The Single European Sky (“SES”) is an EU initiative to tackle air traffic congestion across Europe, which has been running since 2004. It seeks to bring a more coordinated structure to the (previously highly fragmented) European air traffic management system, enhancing efficiency, capacity and safety.

In the years since, air traffic has continued to grow across Europe, leading to increased delays and further strain on the capacity of the continent’s air traffic management system. To tackle these issues, a second set of SES regulations (“SES 2”) were subsequently implemented in 2009 to further streamline European air traffic management. In 2013, as delays and flight cancellations began to increase yet again, the Commission proposed a further set of reforms, known as SES 2+. These reforms were never implemented, having been stalled at Council level since 2015 due primarily to sovereignty issues between the UK and Spain over Gibraltar.

Further studies and reports since 2013 have led the Commission to amend the 2013 SES 2+ text, and introduce revised measures aimed at addressing capacity and environmental challenges facing EU air traffic management. This has become particularly urgent in light of the increased EU focus on carbon emissions and the Green Deal, with the EU estimating that a 10% decrease in carbon emissions across the European flight network is possible through more efficient flight paths as a result of better coordinated air traffic management.

This particular proposal is part of the Commission’s revised SES 2+ package, alongside

COM (2020) 579. It establishes a permanent structure within the European Aviation Safety Agency dedicated as the Performance Review Body, responsible for vetting Member States' air traffic management performance plans, and their alignment with EU goals. Alongside this new structure will be a dedicated appeals body known as the Appeal Board for Performance Review where stakeholders may contest decisions of the Performance Review Body.

9. Legal basis of the proposal

Article 100(2) of the Treaty on the Functioning of the European Union

10. Voting Method

QMV

11. Role of the EP

Co-decision.

12. Category of proposal

Some significance.

13. Implications for Ireland & Ireland's Initial View

The market liberalisation of European air services has been very beneficial to Ireland, as an economy which relies heavily on its air connectivity with a substantial home-grown aviation sector. Air traffic management delays across the European network, together with the unnecessary emissions caused by such delays, have had a negative effect on such connectivity, and the State, subject to agreement among EU Member States has been broadly supportive of the Commission's efforts to reform SES. A more integrated, resilient and efficient European airspace is in Ireland's interests as an island nation dependent on air travel.

14. Impact on the public

The proposal is part of the broader SES reform package being brought forward by the Commission with the aim of improving the capacity of the European air traffic management system and minimising delays while reducing carbon emissions from inefficient flight paths. The proposal is therefore beneficial to the travelling public.

15. Have any consultations with Stakeholders taken place or are there any plans to do so?

The Commission is proceeding with this proposal on the basis that it is merely a continuation of the 2013 SES2+ proposals, which were the subject of an impact assessment at that time. The Commission has also pointed to the extensive stakeholder consultation undertaken in the reports which have input into the latest proposal, such as the Wise Persons Group on the Future of the Single European Sky.

16. Are there any subsidiarity issues for Ireland?

The proposal builds on existing EU legislation covering air traffic management, which is an area of shared competence under Article 100(2) of the Treaty on the Functioning of the European Union.

17. Anticipated negotiating period

Timelines permitting the Commission anticipates a first reading of the proposed regulation in the EU Parliament by the end of 2020. If an agreed general approach emerges between the Parliament and Council, adoption is then expected in the first half of 2021.

18. Proposed implementation date

Following adoption of the regulation by the co-legislators, work will begin on the details of the implementing regulations to give effect to the new act. The Commission's intention is that these regulations will be fully developed and in place to allow Member States submit their Multi-annual Air Traffic Management Performance and Charging Plans in time for the next SES performance and charging cycle (reference period four (RP4)), in January 2025.

19. Consequences for national legislation

No consequences. The proposal will amend existing EU regulations covering air traffic management.

20. Method of Transposition into Irish law

N/A.

21. Anticipated Transposition date

N/A.

22. Consequences for the EU budget in Euros annually

None expected. The new structures envisaged within EASA will be funded through levies/fees on Air Navigation Service Providers in line with the current funding of SES supervisory bodies.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**amending Regulation (EU) 2018/1139 as regards the capacity of the European Union
Aviation Safety Agency to act as Performance Review Body of the Single European Sky**

(Text with EEA relevance)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

The Single European Sky (SES) initiative aims to improve the overall efficiency of the way in which European airspace is organised and managed through a reform of the industry providing air navigation services (ANS).

The amended proposal for a Regulation of the European Parliament and of the Council on the implementation of the Single European Sky [COM(2020) 579] is aimed at updating, in light of experience, and recasting the current legislation regarding the Single European Sky. While the original objectives and principles of the proposal adopted by the Commission in 2013 [COM(2013) 410] remain the same, the amended proposal specifically focuses on accelerating the adaptation of the air navigation services in light of those principles and objectives.

One important element of the amendments proposed in this context consists in establishing a permanent Performance Review Body (PRB) function, to be exercised by the European Union Aviation Safety Agency (hereafter referred to as “the Agency”). The arrangements necessary for these purposes require that several amendments be made to Regulation (EU) 2018/1139, with a view to ensuring that the PRB functions are carried out with the necessary independence and expertise and with the required resources. Those amendments are set out in the present proposal.

The amended recast proposal referred to above and the present proposal should be considered as a single and consistent package.

• Consistency with existing policy provisions in the policy area

The Commission’s Aviation Strategy for Europe of 2015¹ called for the immediate adoption of the SES2+ proposal by the co-legislators. Together with the amendment to the SES2+ proposal [COM(2020) 579], the present proposal is fully in line with the overall strategy for this policy area and, in particular, is expected to enable progress on this legislative file.

• Consistency with other Union policies

This proposal represents the necessary complement to the amended proposal on SES2+. As such, it participates in the improvement of the performance of air navigation services which in turn contributes to the reduction of CO₂ emissions in the aviation sector to digitalisation and more generally to the smooth functioning of the internal market, all of which are Commission priorities.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

- **Legal basis**

The legal basis for the proposed amendment is Article 100(2) of the Treaty on the Functioning of the European Union.

- **Subsidiarity (for non-exclusive competence)**

Article 100(2) of the Treaty on the Functioning of the European Union gives the Union the right to act in this area, which is one of shared competence.

Air traffic management, more specifically, has been covered since 2004 by Union law, which cannot be amended by Member States acting in their own right. On substance, and by nature, air traffic management affects the airspace of the entire European Union, and cross-border movements of persons, goods, services and capital are inherent to aviation.

As regards more specifically the amendments to Regulation (EU) 2018/1139, proposed herewith as a necessary component part of the package, such amendments can only be brought about by the Union and not by its Member States.

- **Proportionality**

The proposal does not go beyond what is necessary to achieve its objectives, namely to ensure that PRB functions are exercised with the necessary independence and expertise and with the necessary resources. Its main elements are supported by the various inputs listed in Annex IV of the accompanying Staff Working Document.

- **Choice of the instrument**

The amendments proposed concern Regulation (EU) 2018/1139 and should therefore equally take the form of a Regulation, to be adopted by the European Parliament and of the Council under the ordinary legislative procedure. It should be presented separately from the amended recast proposal [COM(2020) 579] since Regulation (EU) 2018/1139 is not among the acts to be recast.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

This proposal forms part and parcel of a package whose main element is the amended recast proposal figuring in document COM(2020) 579.

For the entirety of the package, reference is made, first, to the impact assessment already carried out by the Commission for the 2013 SES2+ proposal: SWD(2013) 206 final.

Second, the additional elements related to the PRB function have been assessed at present in SWD(2020) 187. Background are recommendations made in 2017 by the European Court of Auditors in the Special Report on the Single European Sky, and in the Report of the Wise Persons Group on the future of the Single European Sky in 2019. SWD(2020) 187 also takes

into account the calls for action contained in the joint stakeholder declaration signed during the high-level conference on the future of the Single European Sky in September 2019.

4. BUDGETARY IMPLICATIONS

The proposal has no implications on the Union budget. The proposed new “PRB” function is to be financed by fees and charges and administratively integrated into the Agency. A reserve fund covering one year of operational expenditure is proposed, in order to ensure the continuity of its operations and of the execution of its tasks. In addition, it is proposed to provide for annual contributions to be made by designated air traffic service providers concerned by the Agency’s tasks and powers as PRB, for the built up of the new function. Such annual contributions are proposed to be collected for five financial years following the entry into force of the amending Regulation, in order to cover the costs of setting up the new functions within the Agency.

All in all, the Union’s budget will not be affected.

5. OTHER ELEMENTS

- **Implementation plans and monitoring, evaluation and reporting arrangements**

The amended recast proposal for an SES2+ Regulation [COM(2020) 579] provides in its draft Article 43 for an evaluation of the terms of that Regulation, to be conducted in 2030. That evaluation should cover in particular the performance of the PRB function, having regard to the underlying objectives. Logically, it should encompass the amendments proposed herewith.

- **Detailed explanation of the specific provisions of the proposal**

The rules proposed provide for a permanent structure dedicated to performance review, in order to ensure the necessary independence and expertise. In order to allow for a timely legal review, without prejudice to the competences of the Court of justice, it is proposed that decisions taken by the Agency acting as PRB be subject to appeal before a dedicated body of the Agency, i.e. the Appeal Board for Performance Review.

The solution whereby the PRB functions are exercised by the Agency, albeit through dedicated bodies and function holders, appears adequate also from a cost-efficiency point of view.

The Regulation proposed lays down the composition of and relevant requirements regarding the bodies and function holders provided for with a view to enabling the Agency to act as PRB. The tasks and powers to be conferred upon the Agency for these purposes are those laid down in the amended recast proposal [COM(2020) 579]. They include the assessment and approval of performance plans of designated air traffic service providers, the provision of advice to the Commission regarding the Network Performance Plan, the monitoring of performance, and the verification of unit rates of air traffic service providers.

In order to optimise the functioning of the Agency as a Performance Review Body, it would be desirable for the Union to convene with Eurocontrol the transfer of technical expertise and relevant performance-related data, possibly by amending the existing High-Level Agreement between the two parties.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Regulation (EU) 2018/1139 as regards the capacity of the European Union Aviation Safety Agency to act as Performance Review Body of the Single European Sky

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 100(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee,

Having regard to the opinion of the Committee of the Regions,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) In order to optimise the application of the rules regarding the Single European Sky, Regulation [amended SES2+] establishes the competence, for various tasks notably in respect of the performance and charging schemes, of a specialised Union body, the European Union Aviation Safety Agency acting as Performance Review Body (hereafter the “Agency acting as PRB”).
- (2) In line with this objective, it is necessary to establish, within the Agency, a corresponding, permanent structure, guaranteeing that the tasks conferred upon the Agency acting as PRB be carried out with the required expertise as well as independence from public or private interests and that, in this context, the Agency can rely on dedicated resources.
- (3) Regulation (EU) 2018/1139 of the European Parliament and of the Council², should therefore be amended, in a manner that separates the discharge of the tasks regarding the performance and charging schemes of the Single European Sky, functionally and hierarchically, from the Agency’s activity as a safety authority.
- (4) For these purposes, a Regulatory Board for Performance Review should be established and a Director for Performance Review should be appointed in order to carry out specifically the functions of the Agency acting as PRB.

² Regulation (EU) 2018/1139 of the European Parliament and of the Council of 4 July 2018 on common rules in the field of civil aviation and establishing a European Union Aviation Safety Agency, and amending Regulations (EC) No 2111/2005, (EC) No 1008/2008, (EU) No 996/2010, (EU) No 376/2014 and Directives 2014/30/EU and 2014/53/EU of the European Parliament and of the Council, and repealing Regulations (EC) No 552/2004 and (EC) No 216/2008 of the European Parliament and of the Council and Council Regulation (EEC) No 3922/91 (OJ L 212, 22.8.2018, p. 1)

- (5) In line with the principles set out above, the Regulatory Board for Performance Review should act independently and should not seek or follow instructions or accept recommendations from a government of a Member State, from the Commission or any other public or private entity.
- (6) The Management Board of the Agency should have the necessary powers in particular to appoint the Director for Performance Review.
- (7) The Director for Performance Review should in particular be the legal representative of the Agency in matters of performance review and be in charge of the day-to-day administration in respect of this matter, as well as of various preparatory tasks. The Director for Performance Review should also draft and submit the section on performance review of the programming document, the annual work programme and the annual activity report of the Agency. The Regulatory Board for Performance Review as an independent body should be involved in those activities as necessary.
- (8) Cooperation between national supervisory authorities in the area of performance review is important to ensure smooth application of Union law in this area and should thus be facilitated, namely through the establishment of an Advisory Board for Performance Review.
- (9) Where the Agency acting as PRB has decision-making powers, interested parties should, for reasons of procedural economy, be granted a right of appeal to an Appeal Board for Performance Review, which should be part of the Agency acting as PRB, but independent from its administrative and regulatory structure.
- (10) The Agency acting as PRB should carry out any necessary consultations and act transparently.
- (11) The Agency shall account the revenue and expenditure for performance review separately from other revenue and expenditure. In line with the principle of independence of the Agency acting as PRB, the draft statement of estimates of the revenue and expenditure on performance review to be presented to the Executive Director should be prepared by the Director for Performance Review. Within this draft statement of estimates, changes to the revenue and expenditure on performance review should require the approval of the Director for Performance Review. In the event of disagreement between the Director for Performance Review and the Executive Director, the Director for Performance Review should be put in a position to state his or her views in an effective manner to the attention of the Management Board, before the latter adopts the provisional draft estimate of revenue and expenditure of the Agency.
- (12) It is appropriate that designated air traffic service providers contribute to the setting up of the operation of the Agency acting as PRB and its continuous functioning. Designated air traffic service providers hold natural monopolies in respect of the services concerned, and those services are remunerated by airspace users. Because of this specific feature, it is necessary that the performance and charging schemes be applied to them, so as to optimise the provision of the services concerned on a number of points. The principal role of the Agency acting as PRB consists in the application of those schemes, and the funds necessary for its setting up can therefore be considered as necessary for reasons linked to the peculiar features and the peculiar position of the providers of the services concerned.
- (13) Costs related to the supervision of designated air traffic service providers by the Agency acting as PRB can be divided into costs for its setting up and running costs.

- (14) The costs for the setting up of the Agency acting as PRB are short-term and limited to a few activities, such as recruitment, training and necessary IT equipment, and are necessary to initiate the supervision required for the reasons described.
- (15) Those costs should be paid during five financial years by designated air traffic service providers in the form of annual contributions, calculated in a fair and non-discriminatory manner. Individual contributions by designated air traffic service providers should be determined by reference to their size in order to reflect their importance in the provision of air traffic services in Europe and hence the relative benefits they draw from the supervised activity. Concretely, such contributions should be calculated based on the amount of actual revenues produced by the provision of air navigation services over the reference period preceding the reference period during which this Regulation enters into force.
- (16) In order to establish uniform rules regarding the calculation of annual contributions, in particular the methodology to allocate the estimated expenditure to categories of designated air traffic service providers and the criteria to determine the level of individual contributions based on size, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council³.
- (17) Running costs relate to the cost of the activities conducted by the Agency acting as PRB, in respect of the performance and charging schemes, once the operation of this activity has been set up. Running costs of the Agency acting as PRB should equally be financed by designated air traffic services providers. However, the funding should be based on fees and charges, on account of interventions necessary for the application of the performance and charging schemes. This form of funding can also be expected to enhance the autonomy and independence of the Agency acting as PRB.
- (18) No revenue received by the Agency, of whatever source, should compromise its independence and impartiality.
- (19) The Agency acting as PRB should also provide for a reserve fund covering one year of its operational expenditure to ensure the continuity of its operations and the execution of its tasks.
- (20) The Agency acting as PRB should be open to the participation of third countries which have concluded agreements with the Union and which have adopted and are applying the relevant rules of Union law.
- (21) Regulation (EU) 2018/1139 should therefore be amended accordingly,

HAVE ADOPTED THIS REGULATION:
