1 Introduction

In accordance with Section 4 of the Euro Area Loan Facility Act 2010, as amended by Section 6 of the European Financial Stability Facility Act 2010, the Minister for Finance is obliged to lay before Dáil Éireann a report containing the information set out at Section 2.1.

1.1 Background

The purpose of the Euro Area Loan Facility Act 2010 is to give effect to the Loan Facility Agreement (LFA), agreed by and between certain Euro Area Member States of the European Union and Greece in May 2010, in order to support the financial stability of the euro area as a whole.

The Act enabled Ireland to participate in the Pooled Bilateral Loans to Greece, and entrusted the European Commission to represent the lenders and manage the loans on their behalf. Participating Member States authorised a Euro Area Loan Facility totalling approximately €77.3 billion. This Facility was provided under the first Greek programme, in conjunction with addition IMF support.

Two agreements, the Intercreditor Agreement and the Loan Facility Agreement, are included in the Schedules to the Act. A Memorandum of Understanding was also laid before Dáil Éireann.

The Intercreditor Agreement, under which the Commission manages the Pooled Bilateral Loans for the benefit of Greece, is an agreement between the lenders (the participating Euro Area Member States, aside from Greece) in relation to the implementation of the loan facility.

The Loan Facility Agreement, agreed by and between certain euro area Member States and Greece, outlines the terms of the loan and the conditions precedent for drawing down the loan over three years. This document was signed by the European Commission on behalf of the Lenders, and by Greece.

In late 2010, Ireland stepped out of the Greek Loan Facility upon entering into the EU/IMF Programme for External Assistance, and did not participate in further financial support to Greece. In total, Ireland contributed €347,439,121.03 of the €1,310,046.93 original commitment.

As Ireland is an original signatory to the Greek Loan Facility, its consent is still required to implement any amendment to the Greek Loan Facility

Three amendments to the Loan Facility Agreement have taken place and were adopted by Ireland by means of primary legislation in the:

- European Financial Stability Facility and Euro Area Loan Facility (Amendment) Act 2011;
- Euro Area Loan Facility (Amendment) Act 2012; and
- Euro Area Loan Facility (Amendment) Act 2013.

Under the third amendment to the Euro Area Loan Facility, which reduced the interest rate payable by Greece to non-Programme countries with effect from 15 December 2012, Greece did not make any quarterly interest payments in September and December 2013 in order to recover the excess interest it had paid in the first two quarters of 2013. The amounts owed to Programme countries, including Ireland, in respect of the third and fourth quarters of 2013 were subsequently paid in the first two quarters of 2014. As Ireland exited our programme in December 2013, the rate paid to Ireland has now fallen in line with the third amendment.

Repayments of the principal amounts commenced in 2020. The first capital repayment to Ireland, amounting to €2,998,730.51 took place on 15 June 2020. Thereafter, capital repayments of €4,342,989.01 are scheduled to be take place at three-monthly intervals. The final capital repayment to Ireland is due on 15 June 2040, to the amount of € 1,344,258.73. These capital repayments are in addition to the quarterly interest payments received. The interest calculation is 3M-Euribor plus a margin of 0.5 percent. Payments of principal and interest are credited to the Exchequer and form part of the Central Fund.
