Governance Statement and Board Members' Report

Governance

The Board of the Health Research Board (HRB) was established under The Health Research Board (Establishment) Order 1986 (S.I. NO.279 of 1986) as amended. The functions of the HRB are set out in Article 4 of this statutory instrument. The Board is accountable to the Minister for Health and is responsible for ensuring good governance and performs this task by setting strategic objectives and targets and taking strategic decisions on all key issues. The regular day to day management control and direction of the HRB are the responsibility of the Chief Executive Officer (CEO) and the Executive Team. The CEO and Executive Team must follow the broad strategic direction set by the Board and must ensure that all Board members have a clear understanding of the key activities and decisions related to the entity, and any of the significant risks likely to arise. The CEO acts as a direct liaison between the Board and the management of the HRB.

Board Responsibilities

The work and responsibilities of the Board are set out in the HRB's Governance Handbook, which also contain the matters specifically reserved for Board decisions. Standing items considered by the Board include:

- declarations of interests
- new calls for research award schemes
- · approval of selection panel recommendations on awards
- reviews of major awards
- statistical publications and evidence reviews
- review of progress on strategy implementation
- reports from committees

Article 27 of The Health Research Board (Establishment) Order 1986 (S.I. NO.279 of 1986) as amended requires the Board of the HRB to keep, in such form as may be approved by the Minister for Health with the consent of the Minister for Public Expenditure and Reform, all proper and usual accounts of money received and expended by it.

In preparing these financial statements, the Board of the HRB is required to:

- Select suitable accounting policies and apply them consistently,
- Make judgements and estimates that are reasonable and prudent,
- Prepare the financial statements on the going concern basis unless it is inappropriate to
 presume that it will continue in operation, and
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements.

The Board is responsible for keeping adequate accounting records which disclose, with reasonable accuracy at any time, its financial position and enables it to ensure that the financial statements comply with Article 27 of the Health Research Board (Establishment) Order 1986 (S.I. NO.279 of 1986) as amended. The maintenance and integrity of the corporate and financial information on the HRB's website is the responsibility of the Board.

The Board is responsible for approving the annual plan and budget. An evaluation of the performance of the HRB by reference to the annual plan and budget was carried out at the meeting of the Board on 19 February 2021. The Board is also responsible for safeguarding its assets and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board considers that the financial statements of the HRB give a true and fair view of the financial performance and the financial position of the HRB at 31 December 2021.

Board Structure

The Board consists of a Chairperson, and nine ordinary members, all of whom are appointed by the Minister for Health. The members of the Board are appointed for a period of five years and meet approximately seven times each year. Members of the Board appointed for a second term are appointed for a period of three years. Dr Cyril Sullivan was appointed to the Board on 27 August 2021 and resigned from the Board on 30 December 2021.

The table below details the appointment period for Board members in post at 31 December 2021:

Board Member	Role	Date appointed to the Board / retired
Professor Bernie Hannigan *	Chairperson	5 November 2020 (second term)
Dr Tracy Cunningham	Ordinary Member	15 July 2019
Professor Seamas Donnelly	Ordinary Member	15 July 2019
Professor Tom Fahey	Ordinary Member	18 January 2018
Professor Mairead Harding	Ordinary Member	18 January 2018
Dr Julie Ling	Ordinary Member	9 April 2021
Dr Terry McWade	Ordinary Member	9 April 2021
Professor Charles Normand	Ordinary Member	5 November 2020
Dr Cliona Saidlear	Ordinary Member	(second term) 9 April 2021

Professor Bernie Hannigan was appointed Chairperson on 26 April 2021

Board Committees

Audit and Risk Committee (ARC)

The role of the ARC is to support the Board in relation to its responsibilities for issues of risk, control and governance and associated assurance. The ARC is independent from the financial management

of the organisation. The Committee ensures that the internal control systems including audit activities are monitored actively and independently. The ARC reports to the Board after each meeting, and formally in writing annually.

The members of the ARC during 2021 were Professor Charles Normand (chairperson); Dr Tracy Cunningham, Dr Mairead Harding; Dr Susan Steele, Dr Julie Ling, Dr Terry McWade, Dr Cyril Sullivan and Martin Higgins (External). There were five meetings of the ARC in 2021.

The Management Development Committee (MDC).

The role of the MDC is to oversee the recruitment, selection, and performance appraisal of the CEO. The Committee also acts as a consultative group to the Chief Executive in relation to the review of the performance and development of the Executive Team and planning for management succession in the organisation.

The members of the Committee during 2021 were Professor Bernie Hannigan (Chairperson); Professor Tom Fahey; Professor Seamas Donnelly and Dr Cliona Saidlear. The Committee met twice during 2021.

Schedule of Attendance, Fees and Expenses

A schedule of attendance at the Board and Committee meetings for 2021 is set out below including the fees and expenses received by each member:

	Board	Audit & Risk Committee	Management Development Committee	Fees 2021 €	Expenses 2021 €
Number of	7	5	2	•	
Meetings					
Dr Tracy Cunningham	6	4	-	€8,372	
Professor Seamas Donnelly	5	-	2	-	
Professor Tom Fahey	7	-	2	-	
Professor Bernie Hannigan (Chairperson)	7	-	2	€10,775	€227
Professor Mairead Harding	6	5	-	-	€213
Professor Charles Normand	6	4		€9,619	€39
Dr Terry McWade	5	3	-	€5,602	
Dr Cliona Saidlear	5	-	1	€5,602	
Dr Julie Ling	5	3	-	€5,602	
Dr Cyril Sullivan	3	-	-	€2,654	
Dr Susan Steele	3	2	-	-	

Key Personnel Changes

Professor Jane Grimson retired as Chairperson on 4 November 2020 and Professor Bernie Hannigan was appointed as Chairperson on 26 April 2021. Dr Clíona Saidléar, Dr Julie Ling and Dr Terry McWade were appointed to the Board on 9 April 2021. Dr Susan Steele resigned from the Board on 11 June 2021. Dr Cyril Sullivan was appointed to the Board on 27 August 2021 and resigned on 30 December 2021.

Disclosures Required by the Code of Practice for the Governance of State Bodies (2016) The Board is responsible for ensuring that the HRB has complied with the requirements of the Code of Practice for the Governance of State Bodies ("the Code"), as published by the Department of Public Expenditure and Reform in August 2016.

The following disclosures are required by the Code.

Employee Short-Term Benefits Breakdown

Range		Number of Employees	
From	То	2021	2020
€60,000 -	€69,999	9	9
€70,000 -	€79,999	4	4
€80,000 -	€89,999	11	12
€90,000 -	€99,999	5	6
€100,000 -	€109,999	2	1
€110,000 -	€119,999	1	1
€130,000 -	€139,999	-	1
€140,000 - €1	149,000	1	-

Consultancy Costs

Consultancy costs include the cost of external advice to management and exclude outsourced 'business-asusual' functions.

	2021	2020
Logal advise	€	€
Legal advice	77,662	40,058
Financial advice	43,494	31,454
Human resources	20,172	23,004
Strategy costs Other	-	80,654
	16,155	6,385
Total consultancy costs	157,483	181,555

Legal Costs and Settlements

The HRB did not incur any costs in 2021 or 2020 in relation to legal costs, settlements and conciliation and arbitration proceedings relating to contracts with third parties. Expenditure incurred in relation to general legal advice received by the HRB is disclosed in consultancy costs.

Travel and Subsistence Expenditure

Travel and subsistence expenditure is categorised as follows:

	2021	2020
	€	€
Domestic		
- Board	479	185
- Employees	5,620	7,012
International		
- Board	-	-
- Employees	1,563	15,814
Total	7,662	23,011

Hospitality Expenditure

The Income and Expenditure Account includes the following hospitality expenditure for staff, Board members, selection, and review panels €6,409 (2020: €3,294).

Statement of Compliance

The Board has adopted the Code of Practice for the Governance of State Bodies (2016) and has put in place procedures to ensure compliance with the Code. The HRB was in full compliance with the Code of Practice for the Governance of State Bodies for 2021.

Professor Bernie Hannigan Chairperson

Health Research Board Financial Statements for the year ended 31 December 2021

Statement on Internal Control

Scope of Responsibility

On behalf of the Health Research Board, I acknowledge the Board's responsibility for ensuring that an effective system of internal control is maintained and operated. This responsibility takes account of the requirements of the Code of Practice for the Governance of State Bodies (2016).

Purpose of the System of Internal Control

The system of internal control is designed to manage risk to a tolerable level rather than to eliminate it. The system can therefore only provide reasonable and not absolute assurance that assets are safeguarded, transactions authorised and properly recorded, and that material errors or irregularities are either prevented or detected in a timely way.

The system of internal control, which accords with guidance issued by the Department of Public Expenditure and Reform has been in place in the Health Research Board for the year ended 31 December 2021 and up to the date of approval of the financial statements.

Capacity to Handle Risk

During 2021 the Health Research Board had an Audit and Risk Committee (ARC) comprising of five Board members, one of whom is the Chair and one external member with financial and audit experience. The ARC met five times in 2021.

The Health Research Board has also established an internal audit function which is adequately resourced and conducts a programme of work agreed with the ARC.

The ARC has developed a risk management policy which sets out its risk appetite, the risk management processes in place and details the roles and responsibilities of staff in relation to risk. The policy has been issued to all staff who are expected to work within the Health Research Board's risk management policies, to alert management on emerging risks and control weaknesses and assume responsibility for risks and controls within their own area of work.

Risk and Control Framework

The Health Research Board has implemented a risk management system which identifies and reports key risks and the management actions being taken to address and, to the extent possible, to mitigate those risks.

A risk register is in place which Identifies the key risks facing the Health Research Board and these have been identified, evaluated and graded according to their significance. The register is reviewed by the ARC at each meeting. The outcome of these assessments is used to plan and allocate resources to ensure risks are managed to an acceptable level.

The risk register details the controls and actions needed to mitigate risks and responsibility for operation of controls assigned to specific staff. I confirm that a control environment containing the following elements is in place:

- procedures for all key business processes have been documented,
- financial responsibilities have been assigned at management level with corresponding accountability,
- there is an appropriate budgeting system with an annual budget which is kept under review by senior management,
- there are systems aimed at ensuring the security of the information and communication technology systems,
- · there are systems in place to safeguard the assets, and
- control procedures over grant funding to outside agencies ensure adequate control over approval of
 grants and monitoring and review of grantees to ensure grant funding has been applied for the purpose
 intended.

Ongoing Monitoring and Review

Formal procedures have been established for monitoring control processes and control deficiencies are communicated to those responsible for taking corrective action and to management and the Board, where relevant, in a timely way. I confirm that the following ongoing monitoring systems are in place:

- key risks and related controls have been identified and processes have been put in place to monitor the
 operation of those key controls and report any identified deficiencies,
- reporting arrangements have been established at all levels where responsibility for financial management has been assigned, and
- there are regular reviews by senior management of periodic and annual performance and financial reports which indicate performance against budgets/forecasts.

Procurement

I confirm that the Health Research Board has procedures in place to ensure compliance with current procurement rules and guidelines and that during 2021 the Health Research Board complied with those procedures. Matters arising regarding controls over procurement are highlighted under "Internal Control Issues" below.

Review of Effectiveness

I confirm that the Health Research Board has procedures to monitor the effectiveness of its risk management and control procedures. The Health Research Board's monitoring and review of the effectiveness of the system of internal financial control is informed by the work of the internal and external auditors, the Audit and Risk Committee which oversees their work, and the senior management within the Health Research Board are responsible for the development and maintenance of the internal financial control framework.

I confirm that the Board conducted an annual review of the effectiveness of the internal controls during 2021 and concluded on the outcome of that review at its meeting on 1 July 2022. The Health Research Board did not experience any significant issues that required implementation of changes in its internal controls as a result of the Covid-19 pandemic.

Internal Control Issues

The provision of funds to the grantee before expenditure has been incurred requires the prior sanction of the Department of Health. Sanction was received on 10 January 2022.

During 2021, expenditure of €284,809 was incurred in relation to goods and services with two suppliers, where the procedures employed did not comply with procurement guidelines. In both cases, they related to additional deliveries on previous contracts. Following procurement competitions, new framework agreements are now in place for both services.

Covid Response - Staff

The HRB had no issues to the working or control environment arising from Covid 19. The HRB has a flexible ICT infrastructure that has equipped staff to work from home in a safe and secure way. The HRB have built on this over the past year with the upgrading of new firewalls with an emphasis on extending the IT network to remote workers with security in everything we do. The HRB complement this technical work with support for those who need equipment to do their work properly and provided monitors, printers and desks if needed as well as health and safety guidance.

The HRB have in place a staff wellbeing framework that sees various wellbeing initiatives rolled out to staff throughout the year and have an employee assistance programme in place. The HRB has commissioned a staff survey that will review blended working arrangements.

The HRB continue to monitor guidelines from the Department of Health/DPER in order to ensure consistency within the wider Public Service.

Covid Response – Research Awards

The Covid-19 pandemic presented a unique set of challenges to our health system, society, and economy and it highlighted the importance of high quality and timely evidence and information to inform decisions.

Throughout 2020 and 2021, the HRB played a lead role in the emergency response to covid through funding rapid-response research projects, evidence synthesis activities, clinical trials to evaluate new treatments and vaccines and a national covid-19 biobank. The HRB directed any available core income to this cause and secured some additional covid-related funding from the Department of Health to address specific priorities.

In addition, the initiated discussions with the Department of Health in 2021 about learnings for the research and innovation system from the covid crisis and research needed to ensure preparedness for future health emergencies, including but not limited to pandemics.

Financial Statements for the year ended 31 December 2021

Report of the Comptroller and Auditor General

Ard Reachtaire Cuntas agus Ciste Comptroller and Auditor General

Report for presentation to the Houses of the Oireachtas

Health Research Board

Qualified opinion on the financial statements

I have audited the financial statements of the Health Research Board for the year ended 31 December 2021 as required under the provisions of section 5 of the Comptroller and Auditor General (Amendment) Act 1993. The financial statements comprise

- the statement of income and expenditure and retained revenue reserves
- · the statement of capital income and expenditure
- the statement of financial position
- the statement of cash flows, and
- the related notes, including a summary of significant accounting policies.

In my opinion, except for the non-compliance with the requirements of FRS 102 in relation to retirement benefit entitlements referred to below, the financial statements give a true and fair view of the assets, liabilities and financial position of the Health Research Board at 31 December 2021 and of its income and expenditure for 2021 in accordance with FRS 102.

Basis for qualified opinion

In compliance with the directions of the Minister for Health, the Health Research Board accounts for the costs of retirement benefit entitlements only as they become payable. This does not comply with FRS 102 which requires that the financial statements recognise the full cost of retirement benefit entitlements earned in the period and the accrued liability at the reporting date. The effect of the non-compliance on the Health Research Board's financial statements for 2021 has not been quantified.

I conducted my audit of the financial statements in accordance with the International Standards on Auditing (ISAs) as promulgated by the International Organisation of Supreme Audit Institutions. My responsibilities under those standards are described in the appendix to this report. I am independent of the Health Research Board and have fulfilled my other ethical responsibilities in accordance with the standards.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Report on information other than the financial statements, and on other matters

The Health Research Board has presented certain other information together with the financial statements. This comprises the annual report including the governance statement and Board members' report, and the statement on internal control. My responsibilities to report in relation to such information, and on certain other matters upon which I report by exception, are described in the appendix to this report.

I have nothing to report in that regard.

ten len

Mary Henry For and on behalf of the Comptroller and Auditor General 12 December 2022

Responsibilities of Board members

As detailed in the governance statement and Board members' report, the Board members are responsible for

- the preparation of annual financial statements in the form prescribed under article 21 of the Health Research Board (Establishment) Order 1986
- ensuring that the financial statements give a true and fair view in accordance with FRS102
- ensuring the regularity of transactions
- assessing whether the use of the going concern basis of accounting is appropriate, and
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of the Comptroller and Auditor General

I am required under section 5 of the Comptroller and Auditor General (Amendment) Act 1993 to audit the financial statements of the Health Research Board and to report thereon to the Houses of the Oireachtas.

My objective in carrying out the audit is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement due to fraud or error. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the ISAs, I exercise professional judgment and maintain professional scepticism throughout the audit. In doing so,

- I identify and assess the risks of material misstatement of the financial statements whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- I obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls.
- I evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures.

- I conclude on the appropriateness of the use of the going concern basis of accounting and, based on the audit evidence obtained, on whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Board's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my report. However, future events or conditions may cause the Board to cease to continue as a going concern.
- I evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I report by exception if, in my opinion,

- I have not received all the information and explanations I required for my audit, or
- the accounting records were not sufficient to permit the financial statements to be readily and properly audited, or
- the financial statements are not in agreement with the accounting records.

Information other than the financial statements

My opinion on the financial statements does not cover the other information presented with those statements, and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, I am required under the ISAs to read the other information presented and, in doing so, consider whether the other information is materially inconsistent with the financial statements or with knowledge obtained during the audit, or if it otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact.

Reporting on other matters

My audit is conducted by reference to the special considerations which attach to State bodies in relation to their management and operation. I report if I identify material matters relating to the manner in which public business has been conducted.

I seek to obtain evidence about the regularity of financial transactions in the course of audit. I report if I identify any material instance where public money has not been applied for the purposes intended or where transactions did not conform to the authorities governing them.

Notes to the Financial Statements

for the year ended 31 December 2021

1. Accounting Policies

The basis of accounting and significant accounting policies adopted by the Health Research Board are set out below. They have been applied consistently throughout the year and for the preceding year.

a. General Information

The Minister for Health, in exercise of the powers conferred on him by section 3 of the Health (Corporate Bodies) Act, 1961 (No.279 of 1961) established the Health Research Board under an establishment order in 1986.

Health Research Board's primary objectives as set out in part four of the Statutory Instrument No.297 are as follows:

- to promote, assist, commission or conduct health research to improve health and increase the
 effectiveness of the health services;
- to maintain, develop or support health information systems for the purposes of research and to
 provide the evidence for health policy and services;
- to liaise and co-operate with other research bodies in the State and outside the State in the promotion, commissioning or conduct of relevant research; and
- to liaise with other health information bodies in the State and, where appropriate, outside the State in the development and support of health information systems.

b. Statement of Compliance

The financial statements of the Health Research Board for the year ended 31 December 2021 have been prepared in accordance with FRS102, the financial reporting standard applicable in the UK and Ireland and issued by the Financial Reporting Council (FRC).

c. Basis of Preparation

The Financial Statements are prepared under the historical cost convention and in accordance with requirements laid down by the Minister for Health. By direction of the Minister no provision has been made in respect of benefits payable under the Local Government Superannuation Scheme operated by the HRB. Expenditure is accounted for on the basis of strategic focus areas, enablers and objectives.

d. Revenue - Income recognition

The Department of Health Revenue Grant is credited to the Statement of Income and Expenditure and Retained Revenue Reserves on a cash receipts basis. Capital Grants are accounted on an accruals basis. All other research funding is recognised as income when it is used to offset matching expenditure. Such funding includes a contribution towards the administration costs of the Board. Interest income is recognised on an accruals basis. Other revenue is recognised on an accruals basis.

Notes to the Financial Statements

for the year ended 31 December 2021

e. Expenditure Recognition

Funding for research awards is recognised as expenditure in the period in which it is due for payment to the award holder under the terms of the contract. Grant refunds are netted against grant expenditure in the year of receipt. All other expenditure is recognised on an accruals basis.

An award is a contractual commitment between the Health Research Board and an approved Host Institution for the provision of funding for a specified grant funded programme of research or development of a key research asset. Amounts payable in future years in respect of contractual commitments on existing research awards is disclosed in note 20.

Note 10 has been included to show the HRB's financial records to reflect the HRB Strategy 2021 - 2025 Health Research - Making an Impact. Expenditure, including funding for research awards, is shown against the Strategic Objectives and Strategic Key Actions.

f. Property, Plant & Equipment

Tangible fixed assets are stated at cost less accumulated depreciation. The charge for depreciation is calculated to write down the cost of the tangible fixed assets to their estimated residual values, by annual instalments over their expected useful lives on the following basis:

•	Premises	4%
•	Computer Equipment	25%
	Office Furniture and Equipment	15%

Tangible fixed assets costing less than €650 are not capitalised.

If there is objective evidence of impairment of the value of an asset, an impairment loss is recognised in the Statement of Income and Expenditure and Retained Revenue Reserves in the year.

g. Receivables

Receivables are recognised at fair value, less a provision for doubtful debts. The provision for doubtful debts is a specific provision and is established when there is objective evidence that the Health Research Board will not be able to collect all amounts owed to it. All movements in the provision for doubtful debts are recognised in the Statement of Income and Expenditure and Retained Revenue Reserves.

h. Pensions

By direction of the Minister for Health no provision has been made in the Financial Statements for future pension liabilities. Contributions from employees who are members of the scheme are credited to the Statement of Income and Expenditure and Retained Revenue Reserves when received. Pension payments under the scheme are charged to the Statement of Income and Expenditure and Retained Revenue Reserves when paid. The Health Research Board also operates the Single Public Services Pension Scheme which is a defined benefit scheme for pensionable public servants appointed on or after 1 January 2013. Single Scheme members' contributions are paid over to the Department of Public Expenditure and Reform (DPER).

i. Operating Leases

Rental expenditure under operating leases is recognised in the Statement of Income and Expenditure and Retained Revenue Reserves over the life of the lease. Expenditure is recognised on a straight-line basis over the lease period, except where there are rental increases linked to the expected rate of inflation, in which case these increases are recognised when incurred. Any lease incentives received are recognised over the life of the lease.

Notes to the Financial Statements

for the year ended 31 December 2021

j. Employee Benefits - short term benefits

Short term benefits such as annual leave are recognised as an expense in the year, and benefits that are accrued at year-end are included in the payables figure in the Statement of Financial Position.

k. Critical Accounting Judgements and Estimates

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the Statement of Financial Position date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements have had the most significant effect on amounts recognised in the financial statements.

I. Impairment of Fixtures and Fittings and Equipment

Assets that are subject to amortisation were reviewed for impairment and no impairment was recognised in 2021.

19. Operating leases	2021	2020
	€€	€
During 2021 the Health Research Board held two property		
leases in respect of which it has the following commitments:		
Payable Within One Year	954,492	954,492
Payable within Two to Five Years	3,817,969	3,817,969
Payable after Five Years	7,150,739	8,105,231
	11,923,200	12,877,692
		10,011,004

Operating lease payments recognised as an expense in 2021 were €950,612 (2020: €950,612).

This property at Grattan House, 67-72 Lower Mount Street, Dublin 2 was originally held by way of a 15 year lease commencing on 4th July 2014. The lease is subject to a review every five years, the initial rent being \notin 416,100 per annum. The first 17 months of the lease were rent free and the first rental payment amounting to \notin 31,920 was made in December 2015. The benefit of the rent free period has been spread over the life of the lease. At the true of the first rent review in June 2019 the lease was extended to include the third floor of Grattan House and the annual rent was increased to \notin 954,492 per annum. The term of the lease was extended up to 27th June 2034. The first five months of the lease for the third floor only were rent free. The benefit of the rent free period has been spread over the life of the lease.
